Dear Hiring Manager,

I am writing to express my interest in opportunities within your esteemed organisation. With over 12 years of experience in software engineering, particularly in AI platform enablement and integration, I have successfully led projects that bridge the gap between complex technology and user needs. My recent work includes architecting a production AI gateway that handles over 20,000 API calls daily, showcasing my ability to deliver scalable solutions in high-demand environments.

Throughout my career, I have demonstrated a strong capacity for both technical leadership and hands-on development. I have led teams in building robust systems using a variety of technologies, including Python, C#, and Azure, while ensuring high standards of code quality and security. My experience in managing end-to-end project delivery, from initial design to deployment, has equipped me with a comprehensive understanding of the software development lifecycle.

I am particularly drawn to roles that challenge me to innovate and lead, and I am eager to bring my expertise in AI and cloud infrastructure to your team. I am confident that my proactive approach and commitment to excellence will make a valuable contribution to your organisation.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with your needs.

Sincerely,
Ruhulla Sheik
